This book is not what I expected, but still a decent option if you're limited on time. The book title is printed on the left side of every page, with 4 mandalas printed on the right side. The pages are not perforated but if you tear carefully you should be able to pull out a page without tearing into the designs. Also, the paper is very thin, and as you can see from the pictures the titles can be seen through the paper. Not necessarily a deal breaker, as long as the title ink does not show up once the overlapping portion of that mandala has been colored in. I'll have to test that though. If that happens you can always scan the pages and print onto your own paper so there's no bleed through.

I was disappointed with this book instead of having 1 mandala on each page they have 4 little ones about 3-4 inches apiece .

To many designs on a page ! Definitely too small , fewer mandalas per page and maybe a few more pages?

I was very disappointed in this book because nowhere in the description does it say that there are 4 small mandalas on each page...making them only about 3" in diameter. I was expecting full page size like all the other books that I have ordered. I won't even waste my time doing these!

Small book with 4 smaller mandalas on the page. What a disappointment! Very simple mandalas, suited for young children.

This is one of the best that I have seen so far. I would recommend it to all who like adult coloring.
