Customer Reviews

This book has a wonderful range of mandalas - from simple to advanced. Some of the mandalas are very intricate and I would recommend using Prismacolors Verithin pencils or gel pens. Some of the intricate mandalas have very small lines and may require the use of a magnifying glass, but they seem well worth the effort. I will share the one mandala I have colored from this book. Enjoy!

Mandala, Volume 5 is another exceptional book from this publisher, a wonderful, well made book filled with 50 intricate, original and unique mandalas in a variety of art styles. When I think of mandala coloring, these mandala coloring books are the first that come to mind. You will find a mandala to match your every mood, full of mesmerizing, traditional, balanced, circular mandalas.

You will love every single illustration in this book! Those experienced colorists who enjoy coloring intricate, challenging, very detailed mandalas will love this coloring book. Plus, unheard of: There are an additional 10 coloring pages of illustrations from 10 of this publisher's other coloring books, free samples for your enjoyment. That makes 60 pages to color. Experience colorists will want one of these books in their coloring library at all times.

1. 50 artistic mandalas in 7 1/2 inch, circle form, centered on each page, printed one per page (the back of each page is left blank) on medium weight, bright white paper.
2. All Markers and some Gel pens leach through the paper, so if you are coloring with these, place 2 pieces of paper under the page you are coloring to prevent damage to the next picture.
3. This book is perfect for color pencils, Gel pens, and most can be completed with ultrafine Markers.
4. Most of the mandalas are diabolically detailed or small detailed, a few have medium details.
5. TIP: In diabolically detailed illustrations you can color each detail, but always remember you can color those whole sections and the underlying lines will accent the area instead.

Absolutely gorgeous. Some of the designs are not quite as intricate as others but most of them are very, very intricate patterns. I will definitely buy the other volumes.

granddaughter loved it

fun
