## Synopsis

For the rare moments you have to yourself, enjoy the calming act of coloring with a little dose of sass. ## Customer Reviews

I really was looking forward to this book, I mean come on, "Mommy drinks because you cry"? What momma couldn't use a good laugh?!? However I'm fairly disappointed, first of all when it says "64" pages it really means 32, as the opposite sides are blank, which I understand if you use markers & don't want it to bleed through, BUT it is just a wee bit misleading, and to top it off the first two (read 4) pages are the title page & credits so really you are only talking 30 coloring pages (see the first two pictures I included here) ...and on the note of coloring, the pages even that is limited as the design only takes up part of the page & then a quote is stuck in the middle of part (again see my photos, first 4 designs are shown) - seems it would have been nicer if the quote had been

incorporated into the design so that the entire page was something to color as I've seen in other similar books. And at the \$10 price tag for this one I could have bought two if not 3 of those other similar books. Not sure it is worth the effort to return, if I would have bought it locally maybe, though on that note had I seen it locally I would have been able to thumb through it at which point I probably would have set it back on the shelf & chosen something else :(

Okay, yes, these are printed on one side of the page, so if you really want to do bulk coloring, this isn't the book for you. If however your kids have been driving you bat sh!t crazy, this should give you a good belly laugh. I bought one for myself, now I'm buying more for mommy friends, with a bottle of wine & colored pencils this is an awesome gift. It is irreverent and funny. Not for a new mommy who still thinks it's all going to be cute coos and sweet smiles. However a momma who has argued with a 3year old over the necessity of bath or ruined a life by insisting shoes be put away will enjoy this.

It's a funny coloring book with snarky sayings and fun pages to color. You can never please overly critical people, luckily I'm not one of those, however I am more than happy and love this book so much I also got one for a friend who was thoroughly impressed. We laughed together as we were coloring and drinking wine....like adults

C'mon... lighten up! My youngest kid is 28 and I had to have this book. I did thumb through it, and thought 9.99 was fine compared to some of my "artier" color books. Pages are printed on one side in case you want to display your artwork individually, not to mention skipping the frustration of having to try to work in bleed through from the other side. We need a Grandma one!

This book is utterly hilarious. I sat next to a woman on the train who was coloring in it, and I immediately stopped and bought one on my way home! I color to relax, and the snarky sayings and cutesy art in this book are a great stress reliever - and an antidote to all the really sweet and earnest coloring books out there. If you have a sense of humor and a healthy dose of cynicism, you'll love this book!
