Description Above Indicates the Actual Curse Words Used in Book Had I fully read the description I would've known that there are ACTUAL curse words in this book. That was definitely my fault so no stars taken away for that however the quality of the pictures is lacking some. I tried to list them for you but would not accept my review with cursing in it. A few pages are a bit muddled looking and the paper is pretty thin. All in all, after I rip out a few pages, I'll still end up putting this in a teachers gift.

A very funny coloring book for the teachers in my life. I purchased this to give to one of my son's teachers and know she will love it. There are a few swear words, but most are silly phrases you would use to not swear in front of a child e.g "son of a biscuit"! The first few pages are a color test which is kind of silly, but if you want to test your markers or crayons there is room. Overall I am really satisfied with these coloring books, some designs are more intricate and fun than I have seen before.

Bought a bunch of these for end of the year teachers gifts. They were a hit. The books did contain a couple of real swear words but that wasn't an issue. We just make certain the books landed in the teachers hands and not the kids.

This is a fun book, but it is not a quality coloring book by any stretch of the imagination. The pages

are funny, and some of them are giggle worthy, but the author unfortunately mixed up the funny puns (like "crud muffins") with pages with George Carlin-listed words. This would be a really fun book for a teacher who is also your friend or who you know very well, but I would not give this book to: (1) an elementary school teacher or (2) a teacher you do not know well. Given the title, I expected more punny pages, despite the labeling as an adult coloring book. I gave this to my husband, who is a teacher, but he would certainly not color this in front of students (even high school) or on school property. The quality of the drawings and the pages is also lacking when compared to other adult coloring books. The pages are very thin, the details on the pictures are fuzzy, and some of the pages appear to be colored clip art that is reproduced as a black and white image (and therefore not colorable). Some of the details and lack of crisp lines make it very difficult to color. Additionally, many of the pictures only take up a portion of the page; if the pictures were scaled better, it would be a much more enjoyable coloring experience. This is cute and fun, but I would not buy it again.

There are some awesome drawings in this book. However, I didn't need three pages of 'test' colors. The overall concept is great. Although some of the teacher swears weren't exactly swear words, but there may be people who think differently. The pages are nice to color and I didn't notice any bleed through of my gel pens. Obviously, little eyes shouldn't see this coloring book, so don't put your masterpieces on the refrigerator! This would make a great teacher's gift along with some colored pencils or gel pens.

A fun gift for your teacher friends. When the semester starts getting extra stressful, pass this along to help give them a chuckle and relax them. Yes, there are swear words, as the title suggests, but it's pretty tame and illustrates thoughts most teachers have had at one point or another :).

I gave this as a gift to two teachers at my school that I know well along with a package of colored pencils. Both came to my office laughing hysterically after reviewing the pages. It was a perfect gift for the end of the year for teachers that work so hard to support students. I may have to get one for myself!

The coloring book is excellent and high quality. I grabbed it for teacher relative who I'm positive will get a giggle out of it. It doesn't really contain "swearing", just cute euphemisms or some letter replacements. I wouldn't want smaller children to see this, but high-schoolers would be okay, they

already know (and say) most of the actual words that were replaced in some of the pages. This is a great time to get a gift like this for a teacher-friend or relative, grab it!
