Best Sellers Rank: #8 in Books > Audible Audiobooks > Language Instruction > Spanish #32 in Books > Audible Audiobooks > Nonfiction > Education #900 in Books > Education & Teaching > Schools & Teaching > Instruction Methods

Customer Reviews

This book has been really helpful to me. I've always wanted to learn Spanish but didn't have the time to study it from its very core so I grabbed this phrase book instead. I do know a bit of how it's pronounced and read since I studied basics of Spanish when I was younger although I don't remember most of it. lol. Anyway, this book can be really handy when you're going to areas with Spanish people like that time I went to Spain for a business trip. I barely understood what they were talking when they're not speaking English. With this book, I hope for that to not happen again.

As the title suggests this is The Beginners Guide to Learning the Most Common Spanish Phrases Quick and Easy with everyday phrases that are very useful. if you are interested in learning a quick

list of phrases and words that will help you communicate, this is the book for you! I recommend it to anyone just learning Spanish.

This is a very great guide to Spanish phrases. I have taken up couple of Spanish classes, and I can say that this book can really help me refresh what I learned. It has direct translation from English and even how you pronounce the words correctly. I may not be able to use them daily, but definitely I can use these in the future. I am very confident to recommend this book.

Trying to learn Spanish is not really easy without a handbook. This book is the best handbook I have read to learning Spanish. It started with the basics to learning Spanish and easy words, learning pronunciations, grammars and so much more. I no longer need to bother or beat myself so hard just trying to understand the language, as this book has given a step by step guide to understanding Spanish and pronouncing words in the right way. There is so much to learn from this book.

I purchased a Spanish phrase book, not a religious self help book! What was chapter 10 about (chapter 13 in audible book)?? Titled "Taking control of your feelings". Rambling on for 10 minutes about god, bible verses, our souls and feelings and going before the lord. Dear Carlos Sanchez, if you want to write a christian self help book, do so, and title it accordingly, don't hide that crap in a book people purchase to learn Spanish.

I found this book so much interesting and motivating to read. I was looking for a book that provides an organized and logical introduction to the Spanish language. Likewise the style of writing was easy to understand and precise. This book really seemed exciting to see me step by step how my language is taught, this easy and explains steps and details. I liked the fact that it gives detailed grammar information, including tips for better understanding and pronunciation. The author did a great job.

I've been planning to visit Spain this coming October and I badly need a perfect guidebook on how to learn some basic Spanish phrases so somehow I can communicate with the locals in Spain. A friend of mine refers this book to me and upon checking it on its looks very decent that's why I have decided to purchase it. In this book you will learn a lot of easy Spanish phrases in no time; the instructions and guidelines are so easy to understand! Carlos did a

remarkable job on creating a very well detailed guidebook like this and I commend him for that. It is indeed a good read and I highly recommend it to everyone.

When I had my Spanish subject, I had a hard time learning the language considering that it was just also a second language of my teacher. I was so eager to learn the language. When I saw this book, looks like the interest has come to life again. It has direct translation and even on how to pronounce the word correctly. With this book Spanish learning made easy.
