Customer Reviews

We are a couple of graphic designers, and this book is another in our complete set of the Typography series books. This "yearbook" continues to show the best of a slice of work in the previous year, and provides inspiration, as well as a context of the innovation and evolution in print design. Undoubtedly worthwhile for serious graphic designers and students of graphic design (or technically, any design emphasis).

A great addition to the collection. Be sure to pick this one up today, features really great type examples! :)

Great resource
