The Hateful Eight

Synopsis

Academy Award-winning screenwriter Quentin Tarantino returns with his most infamous, most brilliant, most masterful screenplay yet... At the end of the Civil War, a stagecoach hurtles through the wintry Wyoming landscape. Bounty hunter John Ruth and his fugitive captive Daisy Domergue race toward the town of Red Rock, where Ruth will bring Domergue to justice. Along the road, they encounter Major Marquis Warren, a former Union soldier turned infamous bounty hunter; and Chris Mannix, a renegade who claims to be the town's new sheriff. Lost in a blizzard, Ruth, Domergue, Warren, and Mannix seek refuge at Minnie's Haberdashery, a stagecoach stopover. When they arrive, they are greeted by four unfamiliar faces: Bob, who takes care of Minnie's in the owner's absence; Oswaldo Mobray, the hangman of Red Rock; cow-puncher Joe Gage; and Confederate general Sanford Smithers. As the storm overtakes the mountainside, our eight travelers come to learn they may not make it to Red Rock after all ... THE HATEFUL EIGHT is a Tarantino master class in tension-filled atmosphere, singular characters, and razor-sharp dialogue.

Customer Reviews

so for some reason some people keep thinking this is a novel. i would just like to clarify that Quentin Tarantino aside from "Jackie Brown" has always written stuff 100% from his mind so this in fact is not a novel, but it's a screenplay. and if you didn't know what a screenplay is, it's the script for the movie and what the movie is based off of. but don't worry. don't listen to the people that have been giving it two or one star reviews, because this screenplay reads like a novel. one thing that a great book does is have amazing detail, wittiness, and great descriptiveness. and this is what this script

does. the dialogues and monologues are filled with great wit, incredibly funny dark humor, and the awesome over the top bloody violence that every Tarantino movie has. this screenplay like every other screenplay also comes with stage direction. what stage directions is, if you didn't know, is what the the actor and film crew follow so they know exactly what to do and so the actor knows what the character is like. so it just adds to the great experience. but no matter what you think this product is, you are getting something awesome, though i'm pretty sure you know it's a script by now.p.s. sorry for all the run on sentences and grammar mistakes

Vintage Tarantino. Brilliantly written. His screenplays are an experience. Not some Hollywood BS formula script. He writes from the soul. Everything you want to happen in a Tarantino story, never happens. Everything you don't want to happen, happens. He's the only writer that lures you in to rooting for a character, then unexpectedly kills them by blowing their head off. Can't wait for what he has in store next. Michael Phillip Cash - screenwriter and author.

It said in the description that it was a screenplay so get over yourselves. This is not a forum for discussion of the movie. It's incredible to have an opportunity to purchase the exact screenplay of such a talented writer and director.

I was at first a little disappointed that it was written like a screenplay. But as one reads along, it's totally forgotten. There are some extra lines, back rounds fleshed a little, & extra tidbits that didn't make it into the movie. I bought Mr. Tarantino's Reservoir Dogs and Pulp Fiction screenplay books. Haven't started yet, but looking forward to them. Quentin Tarantino is a great story teller, he always leaves me wanting to know more about the characters and making me surmise my own theories.

At first I was disappointed that the book was written as a screenplay but I read it in a few hours so I ended up liking it more than first thought.Only problem is now I know what happens in the movie!

This was a great read. I would recommend this to anybody who loves reading scripts, and wants to experience one of Tarantino's. When you're reading his scripts, you feel like he's specifically telling the story to you; like you're reading a novel from a powerful narrator, or hearing someone tell you a campfire story.If you didn't go see the movie yet, I'd recommend to read it first because there are a few things that were left out of the film which are in the script that I find great.This is an insanely powerful story. Enjoy it!

An essential accessory for anyone who loves the film. There are a few different scenes that did not make it into the movie - so it sits in an interesting place between the leaked pirated first draft and what we see on the screen. As a book in its own right it is also entertaining and easy to read. Moreover reading this on the morning commute shows your cool factor above the other suits seated around you. Marry me Uncle Quentin ... how can we criticise someone with so much talent?

Still reading it, but it's great so far. If you like Tarantino, it's in your wheelhouse. The biggest thing I'll say is not on the content (because you know it's good). It's the fact that this screenplay has a nice cover and "feels" like a book. Easy to read in bed.
