### **Customer Reviews**

Tripp speaks the truth! There is so much great information in here that is not on his Youtube channel. His tips and techniques really helped build my confidence and approach women. After reading this book I have gotten more dates and had more success with women than at any point in my life.

Tripp knows what he speaks. This isn't one of those magic books that teaches you how to become a stud, without any depth or substance, just to get laid. This really is about your confidence first. Tripp puts in common sense terms ideas that apply not just to dating but really making an impression with anyone. It's an easy read, and probably something you will come back to time and again. Highly recommended for anyone interested in self-improvement.

Last week, my friend brought this book with him to the coffee shop. I read a few pages and I was hooked. I  $\Dreve{A}$   $\Drev$ 

The ONLY book that you need to flirt and seduce woman. Step by step in how to attract the woman that YOU WANT effortless and naturally. Your mindset to approach beatiful woman, how to approach her and what to say, flirting, how to talk a girl, and more... After you read this book you will have all "tools" necessary to have the woman that you want and desire

I don't usually give glowing reviews of books, even ones that I absolutely love. Still, this one was worth my time and effort. The explanations on socialization and how it affects every single decision we make was literally like taking a veil off. If you are a man who has always felt as though something is missing, or that you aren't good enough, or that women are just absolutely illogical,

illusive creatures that you could never have any real success with, then this book is for you. Digest it, and allow your life to change. By getting the correct understanding and applying the principles detailed inside, your life can't help but become better.

Tripp's ideas are clear, concise, and effective. Any man who looks to improve himself and his interactions with the world around him can only benefit from reading Magnetic. The is no filler. Only practical easy to understand advice coming from one of the best experts of positive social interaction. Highly recommended.

Tripp provides a simple, clear and easy to follow format for any guy to develop himself as a man, approach a woman and have a successful dating life. I myself have worked on this area of my life for nearly a decade and have read just about everything on this topic and still found this book valuable on my journey.

If you enjoy reading books with a lot of fluff and flowery language, this is not the book for you. Tripp has a very clear and flowing writing style that allows for a quick read and immediate action. From cover to cover, Tripp includes a lot of tactics that will not only help you get the girl, but also get the sale, the promotion, and make your relationships better in general. I'm a married man of 5 years, and after applying The Eight C's that Tripp outlines in his book, I have noticed a long lost twinkle in my wife's eyes that I have not seen in well... 5 years. I'd recommend this book to anyone struggling to find a girl and who wants real, no-nonsense guidance  $\tilde{A} \not \subset A$  from the advice man himself. I'm sure Magnetic will help you find the woman of your dreams!
