One Year After

Synopsis

The thrilling follow-up to the New York Times best-selling novel *One Second After*. Months before publication, *One Second After* was cited on the floor of Congress as a book all Americans should have, a book discussed in the corridors of the Pentagon as a truly realistic look at the dangers of EMPs. An EMP is a weapon with the power to destroy the entire United States in a single act of terrorism in a single second; Indeed, it is a weapon that the *Wall Street Journal* warns could shatter America. *One Second After* was a dire warning of what might be our future... and our end. *One Year After* returns to the small town of Black Mountain and the man who struggled to rebuild it in the wake of devastation: John Matherson. It is a thrilling follow-up and should delight fans in every way.

I'll confess to a bias up front before getting into the review. I live in Black Mountain, North Carolina, the village where Forstchen has set his story about a community struggling to survive after an EMP attack devastates the United States. Forstchen truly captured the feel of our town, the people, the way they would react, the way they think and talk, and how a small Southern town could indeed band together to help each other get through a crisis. He did his research well on that. This book is definitely another five star job by Forstchen. The sequel, *One Second After* deals with the first year after an EMP attack and focuses on how the total destruction of our electrical infrastructure would forever change our lives, and the reality of how so many experts predict that at least 4 out of 5 Americans would die in the months after our nation is destroyed by the detonation of just several small nuclear weapons about the atmosphere that then wipes out our electrical infrastructure. One

Year After picks the story up, literally, a year after the end of his first novel. The author explores what happens next, a question nearly all fans of his first book have asked. It is one thing to survive that first terrible year, but Forstchen now takes us to the next level. . .we survived but now what in hell do we do? Do we continue to let our nation slide into a final decline and oblivion? Do we hand off to our children and grandchildren a society left in wreckage, the way the descendants of what had been the Roman empire gazed at the ruins about them as they lived in squalor? Or do we band together and start to try and rebuild?The fascinating question Forstchen presents is exactly how do we rebuild?
