Star Wars: The Old Republic: Revan

Synopsis

There's something out there: a juggernaut of evil bearing down to crush the Republic - unless one lone Jedi, shunned and reviled, can stop it. Revan: hero, traitor, conqueror, villain, savior. A Jedi who left Coruscant to defeat Mandalorians -and returned a disciple of the dark side, bent on destroying the Republic. The Jedi Council gave Revan his life back, but the price of redemption was high. His memories have been erased. All that's left are nightmares - and deep, abiding fear. What exactly happened beyond the Outer Rim? Revan can't quite remember, yet can't entirely forget. Somehow he stumbled across a terrible secret that threatens the very existence of the Republic. With no idea what it is, or how to stop it, Revan may very well fail, for he's never faced a more powerful and diabolic enemy. But only death can stop him from trying.

Book Information

Audible Audio Edition

Listening Length: 10 hours and 55 minutes

Program Type: Audiobook

Version: Unabridged

ASIN: B0067VIYGI

Best Sellers Rank: #90 in Books > Audible Audiobooks > Science Fiction > Adventure #133 in Books > Audible Audiobooks > Fiction & Literature > Action & Adventure #307 in Books > Science Fiction & Fantasy > Science Fiction > Space Opera

Customer Reviews

I don't think Drew Karpysyn properly grasped how much emotional investment fans of Knights of the Old Republic have tied up in this story, these characters, and the ending that never seemed to come; if he had, this novel probably wouldn't have turned out the way it did. It might be unfair to judge this novel the way I am right now, since the bias here can't be understated. It's been seven years since I played both games of the KotOR series for the first time, which was one of the most memorable gaming experiences I've had in my life. Since then, I've played the games many times over, always wondering what happened to Revan, the Exile, and their respective companions. THE OLD REPUBLIC: REVAN attempts to give those of us who've been waiting for more than half a

decade some form of closure, but instead manages to effectively kick all of the loose plotlines into a shallow grave, and plant a big sign on top of it that reads, "You happy now? Move on." To start off: don't let the title and that picture of the eponymous hero trick you. This book is NOT about Revan; if anything, only a third of the book's scant 280 pages actually centers on him. The rest follows a previously unknown Sith pureblood called Lord Scourge: a Dark Lord with a name so campy that his dark side compatriots can't help but poke fun at it. For reasons that I'll probably never understand, this Lord Scourge is the absolute focus of the book.

-Some Spoilers Below- The book started off strong, and it was enjoyable and interesting seeing how Bastila and Revan (as well as Canderous) have carried on throughout the years after the events of the KOTOR 1-2. However, too many characters were simply swept under the rug. Carth Onasi was never mentioned at all, in fact. Instead, a lot of time was spent on a new character, Lord Scourge of the Sith. Besides the ridiculously Dark Side-esque name, I actually didn't mind these segments - they were an interesting look into the reclusive Sith Empire. Revan and Canderous go on an interesting quest for Mandalore's Mask, which while it was one of the exciting and awesome segments of the book, rife with tension and combat sections, had a lot more potential. All the clans converging on the area in question at once would have made a brilliant cathartic climax to that plotline of the novel, but instead we get kind of an anticlimatic resolution to the Mandalorian plotline. After this, the book starts to go downhill. Less and less time is given to Revan; he even gets captured at one point, his ship shot down with a single shot from the new character Lord Scourge. And then he proceeds to spend most of the remaining time of the book imprisoned. How exciting, for the character we had waited so long to see back in action. The exile then makes an appearance, and is even given a name. She and Scourge actually find common ground in an interesting twist, and pull off a xanatos gambit which I found myself enjoying, even if Revan had been shunted to the sidelines for these segments. Revan gets his characteristic mask back right after escaping, and it's an awesome scene of reclaimed identity and power.

Alright, I could write a really long review highlighting the many, many things I didn't really care for with this book, however I'll keep myself focused on the title character. As background, I'm a no holds barred KOTOR (Knights of the Old Republic) junkie. I've probably played and beaten the first game a couple dozen times at the very least, and the second (much of which I regret Obsidian getting their hands on) I've played through at least a dozen. Suffice it to say that I have been looking forward to this novel for quite a long time, how disappointed can one fan get? First and foremost,

Revan is powerful. Kreia stated that looking at Revan was like staring into the heart of the Force. Training aside, to say looking at him was equivalent to seeing the living, breathing Force. The Force (can't imagine anyone reading this and not knowing it, but anyway) is the force of life, that energy that binds all living things together. Now, staring at this man, again, all training aside, would be overwhelming to say the least. Revan was said to possess immense charisma, so much that he led much of the Republic military forces and Jedi off to war with the Mandalorians. He was said to be a brilliant tactician, performing feints and counter-feints that left the Mandalorians in complete disarray. The Mandalorians (again for the layman out there) are a warrior culture born and bred for combat. Military tactics, combat styling and synchronized attacks are happenstance thoughts, so to say that this Jedi came along and did what they did, only far better is to say he was not only connected to the force on a level unseen before, but also an incredibly intelligent man just as himself. These traits equal out to an incredibly powerful foe.
