## Customer Reviews

I bought this for my vacation quiet time...I completed 2 full pages and working on the third. It's addicting and indeed very relaxing! I will be buying more.

Got this for my mother in law and she loves it. She told me she finished the entire book in 5 days. Everyone likes to color or I hope they do so adult coloring books like this are perfect for your inner child. Well made product at a great price. Can't go wrong with this as a gift for the mom in your life who loves to be artistic through coloring books.

I bought this coloring book for my wife for Mother's Day this year and she seems to like it so far. She has already colored one page in it and says she looks forward to taking it on our annual family trip to Florida. It will not only help her relax, but will give her something to do on the 16 hour drive down. The pages seem to be thick enough that the coloring doesn't bleed through to the other side with the use of proper pencils and crayons. The artwork is quite extensive and leaves plenty of room for imagination when it comes to coloring and filling in the blank space with creativity and imagination. The only downside I can see to the book so far, is the fact that it seems a little thinner than I would have imagined. I wish it had more content to it and was a larger book. Hence the 4 stars, instead of the full 5 star review. My children also seemed to like the book, and have already asked if they could color in it. This means we will be looking for a nice child one here soon and will review it accordingly as well. I would buy this book again and would also recommend it to a friend.

Many of the pictures had such tiny detail I don't know how it could be colored. Returned

I really like the detail of this coloring book! Every page has a different design, and on the adjacent page includes a quote for mom to read as she colors. Adult coloring books seem to be gaining a lot of popularity, and I bought this as a gift for my mom for this Mother's Day. It's cheap and inexpensive, and I thought it would give her something relaxing to do. I actually made a gift basket for her, and this was one of the items I placed in the basket. Its cute, and the perfect "relaxation" gift for any mom.

I got this for my mom for her birthday and I can't wait to give it to her. It has a lot of very sweet sayings and the pictures are beautiful!

She loved it!

I bought this for my mom for Christmas and she loved. She puts so much detail in her artwork.
