Customer Reviews

I've purchased quite a few adult coloring books over the past year. This one is definitely one of the prettier ones. I bought this for my mother and gave it to her for her birthday. She's a special education teacher, so she needed something to take her mind off of work and have some stress relief. This absolutely helps her. Each drawing is full page. The reverse side of each of these pages is blank. I suggest using colored pencils with this book over markers so that the pages don't bleed. Overall, my mother and I are both very happy with this adult coloring book.

This was a mothers day gift from myself and the kids for my wife. She Loves it and can't seem to put it down. This coloring book has about 30 thick pages of some pretty fun intricate designs and makes great gift when matched with with gel pens. Great gift for any mom or mom to be that enjoys coloring.If my review was at all helpful to you please click the relevant button, thank you.

I got it for my mom for her birthday and she loves it. The pages are all printed on one side on high quality, thick paper that doesn't bleed (important because she likes to color using markers). Would definitely buy any other coloring books made by the same company.

I was searching for a unique gift for my mother and mother in law for mother's day. With the recent craze in adult coloring books, I knew this would be a wonderful gift to get for each of them. They arrived in excellent condition, and they were sealed up and protected nicely. There were no dog eared corners on the books, and the ink on each page was nice and dark to enable you to stay in the lines quite well. The pages were a nice, thick card stock, and did not tear when making multiple strokes with crayons or colored pencils. I have gotten other books, and when I tried to color they went right through the paper, but this book did not do that. It was a very nice quality, and the images were very distinct and easy to see. The variety provided was nice, although the book itself is not super thick with pages as some of these coloring books are. Also, the front and back cover is nice and thick, which is important to me because several of us in the family like to travel and take our coloring with us while on vacations. The thickness helps protect the pages, so the coloring book has lasted quite some time so far with no damage to any of the pages within the book. Overall, I would recommend getting one of these as a gift for someone, or for yourself to color. I love this coloring book very much. Definitely buy.
