Customer Reviews

This is a funny coloring book, 68 8" x 11" pages of humorous puns. Don't be too afraid to order it, it isn't TOO dirty and depraved ;), but it's not a book I would color with the kids. I received it free in exchange for my honest review, and I gifted it to my sister in law-she loves it. The images are very intricate, and the designs are large.

This book follows along the new adult coloring book trend and the newest trend in that, swear words. What I like most about this book is it's not filled completely with swears. There are a lot of puns that are well known and some that aren't, but are really cute. I really loved "B*tch, Peas" with the picture of the peas. "Nice Hooters" was adorable with the two owls. "How about you and I find a darkroom and see what develops?" was my favorite. So while filled with some swear words it is not page after page, so it's perfect for those who just don't want to be inundated with that. I would feel comfortable giving this to my mom to color. I would recommend this book if you are looking for something other than the usual leaves and flowers, but don't want something completely swearsy. This coloring book was provided to me for evaluation and without any further obligation. I did not promise to post a review, but I stated that if I did review the product, it would be an honest, unbiased review.

The Swear Word Coloring Book: Have Some Pun: Hilarious Swearsy Coloring Book For Fun and Stress Relief came in a box with other items. It was packaged well and was not damaged. I have recently started using adult coloring books. I really enjoy them and feel much calmer and less stressed when I do them. The Swear Word Coloring Book: Have Some Pun: Hilarious Swearsy Coloring Book For Fun and Stress Relief is a great adult coloring book. The pages are beautiful but the jokes are dirty and fun. It's a great combination that makes you laugh, which is also a good stress reliever.* I received the Swear Word Coloring Book: Have Some Pun: Hilarious Swearsy Coloring Book For Fun and Stress Relief for a discount in exchange for my honest and unbiased opinion. All opinions are my own.*

One of the funniest coloring books that I've bought in both the excellent line art and the punny phrases. Outrageous Katie has taken some of our most common phrases and twisted them as only she can. PLEASE NOTE THIS BOOK IS NOT SOLD SPIRALED. But it is single sided on good paper. This is definitely an adult coloring book so if language offends you stay away. But if you're tired of shapes and scenery and boring stuff try this book

I have ordered about 10 different adult coloring books from and picked up about 10 more in stores. This is hands down, the best one I've gotten. The pictures are fun to color and the puns are hilarious! I have shown all my friends, and they've all cracked up over the pictures/puns. I even ordered a 2nd one for my best friend!

I have been keeping an eye out for some fun adult coloring books that are not the same butterflies and unicorns you find everywhere else. This one stood out to me so I decided to give it a try. When I received the book I was a bit confused as what looks like the cover is not the cover. I did discover though if you click on the cover picture on the listing for this product it does show the actual cover. The book itself is awesome. The details in the pictures as well as the pictures and the sayings on each picture are outstanding. They are hilarious and gave me some much needed laughter. This is not a book that should be opened or used when children are around as it is no where near kid appropriate. This is an adult book only! The book only has the pictures on one side and the paper is nice and thick. I only use gel pens and map colors but I still don't think I would take the chance of markers fading through so if using markers I would put another paper in between the pages to make sure it doesn't go through. This is a great adult coloring book and would make a great gift for any coloring addict enthusiast. I highly recommend it.

I love to color and am always looking for fun stuff to do and after seeing some of the sample pages as well as reading some reviews and the book description, I ordered this one. I adore these drawings. The one about masturbation left me laughing, for example, and others are funny and clever. Of course, I don't love every drawing in the book, but I really enjoyed a lot of them. What really brought this down for me was the paper. The description of the book called it "high quality" paper but I found it to be rather thin. It creased without too much effort. Books like Johanna Basford's have paper that you really have to bend to get it to crease, but this paper could be easily bent or folded. When I tried colored pencils, I found the paper to have too much tooth. Sometimes not even burnishing helped here, leaving patches of blotchy color with blank spots in it. I then tried some markers and they soaked through very easily. Even markers that I can use in other coloring books that don't normally soak through would soak through on this paper. Just for comparison's sake I tried a Copic on it and while I expected it to soak through as that's what Copics do, I got feathering around the edges meaning that the paper absorbed the ink too quickly. So while I thoroughly enjoyed looking at the drawings, I couldn't recommend this for actual coloring. The paper is just not good enough. I hope that in future the author gets better paper for her coloring books as

my experience with this book was bad enough that I am not sure I want to buy another of her books.
