I have several other of Tabby's books, and I really like her style of drawing. So I had to check this one out too! I'm a child of the 70's, so many of the images appeal to me and bring back fond memories. I absolutely love lava lamps (and still have one), so I had to color that page first!! I used several different sets of colored pencils to color it with fun, bright colors. There are also pages of hippies, a van, chic doing yoga, tons of flowers, and so on. Features of the book: -30 designs are on the front of the page only--nothing on the back.-Bright white paper--the same as all the Createspace publications.-Pages are not perforated.-Designs are suitable for markers, colored pencils, and gel pens. Some of them are even large scale enough for crayons.-Markers may bleed through, so use a blank page as a "color protector page". Overall, if you like the 70's and coloring, I bet you'll love this book!

As a leftover hippie, myself, this is a fun book (except for the disco picture...haha). I love to color and don't get many books anymore, but Tabitha's books are affordable and fun. Great artist, who captures the titles of her books. If you love adult coloring, you will love this, or any, of her books!

Another hit from Tabitha Barnett! If you grew up in the 70's you will really enjoy coloring in this book! My granddaughter loves this book also. It's a race to see who grabs it first!! Pick one up today!

Absolutely love this coloring book! Great pictures
